

WORKSHOP ON **ASPECT IMPACT & RISK ASSESSMENT**

 **DURATION** 

TRAINING OBJECTIVES

To develop awareness and practical understanding among personnel on identifying, evaluating, and managing environmental aspects, impacts, and associated risks in line with ISO 14001:2015 requirements. This training aims to equip participants with the knowledge and tools required to systematically assess environmental risks and opportunities, prioritize significant aspects, and implement effective control measures. It enables individuals to support compliance, minimize environmental harm, and enhance overall environmental performance within their organization.

COURSE CONTENT

- Overview of ISO 14001:2015 and EMS framework
- Understanding Environmental Aspects and Impacts
- Identification of environmental aspects in operations, products, and services
- Evaluation of environmental impacts & significance criteria
- Risk and opportunity assessment in EMS
- Methodologies for Aspect-Impact-Risk Assessment (AIRA)
- Legal and compliance considerations in environmental risk evaluation
- Control measures and operational planning for significant aspects
- Documentation and record-keeping requirements
- Case studies and practical exercises on aspect-impact assessment

LEARNING OUTCOME

- Listed below are some of the benefits of attaining Environmental Aspect, Impact & Risk Assessment Workshop:
- Understand the concept of environmental aspects, impacts, and associated risks
